

Exchange Area

The exchange area can be used for deals which have happened prior to the show, however this is not a substitute for a table.

How it works;

The area is situated in the main entrance and sign posted, you will be directed to the area when entering the show.

Pass your container/bag to the volunteer in the area, give a donation (this goes to the IHS Fighting Fund) and they will place a ticket on the container/bag and give you a copy.

Give this ticket to the person collecting the animal so they can pick it up. No Ticket, No Collection.

Important Information;

This area is supplied by the venue to stop deals being done in the car parks and make sure the animals are in a safer environment than being left in a car.

As this area is just a service, our vets do not look at the animals in the exchange area like they do in the actual show. However if you have an issue, please go speak to one of the volunteers on the tills by the main entrance who will arrange for one of the vets to come see you.

Bags and boxes will be searched if you're taking them into the hall.

Rules;

- Limit is 8 animals per person
- The container **must** include;

Individuals name and phone number

Collectors name and phone number

(Failure to do this will require you to fill in a form when entering the room and slow the process down)

- Animals are not allowed to enter the main hall, even if the collector is an exhibitor. They must stay until the collector is leaving the show.
- It is your responsibility to ensure that your animals are in proper containers and heated where necessary. The IHS takes no responsibility.
